### Mini R~Dent Compressed Air Dental Unit

This is a 2 outlet manually switched mini compressed air unit with 3-in-1 Syringe supplied as standard. As its name suggests this unit has a very small footprint to fit in the smallest of spaces with its self-contained water supply system.

The Mini R~Dent unit provides all the essentials of any compressed air system to suit the smaller practice.

Unit Can Be Arm Mounted Or Even Fixed To The Compressor Case,  
Further bespoke solution available upon request.
